Description (optional)

name@example.com

I had the opportunity to rest and to present my idea to different people. When I told them about my plans, they made me confront the fact that I really don't know much about product design and that, in the end, that is not my area of expertise. I have worked in managing social situations.

There was something holding me back.

After a mini-tutorial I had with Zuleika, we came to the conclusion that my project is growing and that I should redirect it towards what truly calls to me.

NEW idea

I'm still having trouble defining the gap I want to work with.
